

DELAWARE'S RESOLUTION DATA

When a due process complaint is filed, a resolution session is one avenue people can utilize to problem solve.

U.S. Department of Education Office of Special Education Programs (OSEP) has worked with State Education Agencies (including the Delaware Department of Education) to promote and support changes to education that will improve results for children with disabilities under IDEA. States are required to develop a State Performance Plan (SPP) describing how it will improve outcomes for students with disabilities over a 4-year period of time and to report annually on progress. Outcomes include areas such as graduation rate, dropout rate, participation and performance on assessments in reading and math, as well as compliance with all special education laws
