Looking at ways for youth to participate in how services are developed and provided.

We hope to make a difference by:

- Reducing the stigma associated with a disability
- Students will be educating each other on the issues they face
- Exploring different solutions that can solve some of the issues youth with disabilities face in their community (students will be given the freedom to drive their conversations)
- Advocating for better services
- Providing peer support
- Being better self-advocates
- Creating a youth presence in an adult dominated world
- Developing our own leadership skills

Current activities:

- Meeting MONTHLY
- Conferences, staff trainings, and other public speaking opportunities
- Giving our input on articles, publications, and to youth and family serving organizations
- Participating in volunteer activities related to Special Education
